TOUCHING **LIVES**

Ashoka has extended its support to the emerging motor-sports talent Mr. Anshul Shah, who is currently contesting in the Polo R Cup. His performance is drawing appreciation from big names in the sport.

Ashoka reaches out to villages and tribal areas for increasing the levels of education in their regions. Free distribution of books/uniforms to girl-students, seminars on importance of literacy etc. are few of the activities conducted to encourage children in being regular at school.

TOUCHING **LIVES**

Ashoka is making an effort along with Nature Conservation Society of Nashik to save the precious wild life of Maharashtra. Drawing competitions, students' trips to forests, tree plantations, seminars and similar activities are organised to familiarise children with the endangered species of plants and animals. The objective is to make these children realise the importance of nature conservation.

Ashoka Buildcon supports Lotus Hospital in its 'Fight Cancer Initiative'. Recently the hospital launched a 'Mobile Laboratory for Blood Cancer Detection'. The van is used for organising free blood check-up camps in rural regions where there are inadequate facilities for cancer detection.

"ROAD SAFETY **BEGINS WITH ME!**"

Ashoka Buildcon's Awareness Campaign on Road Safety

Roads and Highways are essential for the progress of any society or nation. To achieve the purpose, they have to be used wisely....safely !

It is seen that people tend to ignore basic road safety measures such as use of helmets, seat belts, speed limits etc. The result, more accidents, more fatalities.

Ashoka Buildcon's "road safety begins with ME !", is an initiative that focuses on reaching out to people at large and requesting their participation in an effort to reduce fatalities occurring due to road accidents.

The activities conducted in the first phase of this campaign included display of safety slogans at toll plazas & foot over bridges, interaction with commuters and distribution of specially designed 'safety message' key chains.

Also a unique 'Online Accident Reporting Application' has been launched which is proving beneficial in saving human and animal lives by enabling faster reporting of accidents on our highways.

Dear Shareholders,

It's a pleasure to share with you, my fellow shareholders, that your company has again posted a decent set of results despite the difficult times faced by the Indian economy.

In the year gone by, we experienced unfavourable economic environment stemming from inflationary pressures, policy paralysis, bureaucratic indecisiveness and hurdles in environment clearances, land acquisition and forest clearances. We have also experienced non payment of claims by the government. Yet, we do see a definite ray of hope as the new government takes over the reigns of the economy and we expect the return of thrust in the infra sector.

You would be happy to know that the confidence posed on us by our holdco equity partner SBI Macquarie has been reinforced by the early completion of the Dhankuni bridges which has improved the IRR significantly. With a positive view on the economical status of the sector, we can look forward to a significant growth in our holdco portfolio.

We continue to widen our penetration in the highways as well as the power distribution sector including the BOT annuity highway project in the State of Karnataka which we bagged recently in Joint Venture with GVR.

We are happy to share the growth and gains by way of dividend and simultaneously addressing capital commitments. Despite a slightly lower turnover, we could post a better consolidated Profit Before Tax of Rs.139 Crore against Rs.129 Crore on account of improvement in EPC margins. Consolidated PAT improved from Rs.84 Crore to Rs.97 Crore. The Net Worth of the Company has increased from Rs.1036 Crore to Rs.1248 Crore. The corporate actions taken by the company in the form of split and bonus have hopefully unlocked value for you.

The quantum of work to be done in the road sector coupled with the new government's promises on good governance and growth truly invokes the thought that indeed 'ACHHE DIN AANE WALE HAIN !'

I thank Board Members, my Colleagues, the Stakeholders including the Shareholders, Private Equity Partners, Lenders, Employees and Vendors who walk with us and strengthen us in our pursuit of excellence.

Thank you,

With best wishes

The report may contain forward looking statements, which describe the company's objectives, projections, estimates, expectations or predictions within the application Securities, Laws and Regulations. The Company's actual results, performance or achievements could thus differ materially from those projected in any such forward looking statements. INDIAN INFRASTRUCTURE SECTOR

The infrastructure sector continues to face challenges in the year under review. High interest rates, policy paralysis and low order flow persist.

With the coming of the new government, it is expected that economic factors would turn favourable, bureaucratic delays will be removed, issues relating to environment clearances, land acquisition and forest issues would be cohesively addressed and new order flow would take place which is the need of the day.

With the government acknowledgement of the role of infrastructure continues to be unchanged, the task of implementing the infrastructure projects is more warranted. In the last year we have seen major issues being given attention to like environment clearances for brown field projects, more teeth to the law for land acquisition and delinking of forest clearances and environment clearances which was becoming a chicken and egg story. We will observe major decisions being implemented in clearing the road for infra projects to take off this year.

In this regard, your Company has been certified as ISO 14064.1 as a GHG compliant Company.

RESOURCES AND LIQUIDITY

Despite rising interest costs the Company has managed to ensure that funds are available to meet operational and strategic needs like capital investments and has tried to arbitrage on interest costs by accessing funds across various products and maturity profiles. The Company has, through CRISIL, improved its rating for long term and short term loans.

CHALLENGES RISKS & CONCERNS

The Company's business is highly dependent on road and bridge projects in India undertaken or awarded by governmental authorities and other entities funded by governments. Any change in government policies resulting in a decrease in the amount of road and bridge projects undertaken or a decrease in private sector participation in road and bridge projects adversely affects our business and results of operations.

Infrastructure projects involve agreements that are long-term in nature (as much as three years in EPC contracts and around 25 years in Design, Build, Finance, Operate and Transfer (DBFOT) road projects). All long-term projects have inherent risks associated with them and involve variables that may not necessarily be within our control. Accordingly, we are exposed to a variety of implementation and other risks, including inflation, interest rates movements, liquidity, commodity and oil prices, governance, construction delays, material shortages, unanticipated cost increases, cost overruns, inability to negotiate satisfactory arrangements with joint venture partners, and disagreements with our joint venture partners. In addition, the long-term nature of our contracts exposes us to increased risk of unforeseen business and industry changes which could have a material adverse effect on our business, financial condition and results of operations.

We are increasingly bidding for and winning contracts for large-scale infrastructure projects. There are various risks associated with the execution of large-scale projects. Large contracts may take up an increasingly large part of our portfolio, increasing the potential volatility of our results through increased exposure to individual contract risks. Managing large-scale integrated projects may also increase the potential relative size of cost overruns and negatively affect our operating margins. In addition, we may need to execute large-scale projects through joint ventures with other companies, which expose us to the risk of default by our joint venture partners.

Cost of Input materials such as Bitumen depends upon the International Market for Oil. As Bitumen is a major raw material, any Change in the Oil prices affects the overall cost of the projects. The availability of labour for execution of projects is also a major risk factor.

HUMAN RESOURCES DEVELOPMENT

We believe that our continued success will depend on our ability to attract and retain key personnel with relevant skills and experience. Despite the current scenario the attrition rate among our top management has been negligible. The company has robust process of human resource development. Presently Ashoka Buildcon Limited has 1,259 employees at various levels. We have a well drawn out HR Policy in place and encouraging working environment. One of the steps towards employees' participation in the management, Company has Employees Stock Options (ESOP) Scheme in place. The Company has continued to focus on various aspects like employee training, welfare and safety thereby maintaining a constructive relationship with staff members.

FINANCIAL OVERVIEW OF THE CONSOLIDATED ACCOUNTS

1. The consolidated income for the year is ₹1,812.21 Crore and Net Profit of ₹97.45 Crore as against last year income of ₹1,882.08 Crore and net profit of ₹84.19 Crore. Out of the total consolidated income, Construction revenue for the year is ₹1,407.06 Crore as against ₹1,484.24 Crore last year. There is marginal decrease in turnover due to decrease in construction revenue in the year, as there were no major tenders floated by authorities. Further, other income has reduced to ₹17.33 Crore from ₹29.40 Crore on account of loss from associates.
2. Toll revenues for the year have grown from ₹286.51 Crore to ₹292.80 Crore. The marginal increase is on account of capitalisation of Belgaum project in the month of March 2014 and accordingly toll revenue of ₹5.19 Crore is considered in P&L account. Other reason for increase is on account of major rate revision of Dhankuni project due to early completion of Roopnarayan bridge. The increase in toll collection offset by non collection of toll at Nagar Karmala project for whole year and completion of Bankapur toll collection contract in the month of May, 2012.
3. EBITDA, before exceptional items, for FY 2014 has increased to ₹411.87 Crore from ₹401.28 Crore for FY 2013.
4. The main reason for increase in Net profit for the year is that during the last year the Company had paid Tax of ₹10.81 Crore on account of earlier year taxes.
5. Depreciation cost has increased by 5% to ₹138.91 Crore from ₹132.38 Crore, mainly on account of increase in EPC assets and one month depreciation on Belgaum project.
6. For discontinued toll collection at Nagar Karmala Project the Company has charged off full value of pending WDV of ₹31.38 Crore in two years i.e. ₹15.69 Crore in FY 2013 and ₹15.69 Crore in FY 2014.
7. As at 31st March 2014 the Net Worth is at ₹1,248 Crore and the Gross Debt is at ₹3,193 Crore, resulting in Debt/Equity ratio of 2.56: 1.
8. The Company, Ashoka Concessions Limited (ACL), a subsidiary and Macquarie SBI Infrastructure Investments Pte Limited, Singapore (MSIPL) and SBI Macquarie Infrastructure Trust, (SMIT), Mumbai, (MSIPL & SMIT have been referred to as Investors) have entered into a multi party agreement. Pursuant to this agreement the Company and Investors have to subscribe to the equity shares of ACL in a manner to have the inter-se holding in the ratio of 66:34. As at the year end the company has effectively funded less than its share in net worth of ACL. This excess amount is shown as reserve of ₹128.36 Crore as at year end, on account of premium on dilution of subsidiary.

Subsidiary undertakings are those companies in which ABL, directly or indirectly, having an interest of more than one half of voting power or otherwise have the power to exercise control over the operations. Subsidiaries are consolidated from the date on which effective control is transferred to the Group till the date of such control exists. The consolidated financial statements have been prepared in accordance with historical cost convention, the applicable accounting standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956.
- b) The financial statements of the Company and its subsidiary companies are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra group balances and intra-group transactions in accordance with the Accounting Standard (AS) 21 – “Consolidated Financial Statements” issued by the Institute of Chartered Accountants of India.
- c) The Build, Operate and Transfer (BOT) contracts are governed by service concession agreements with government authorities (grantors). These contracts are executed through special purpose vehicles incorporated for this purpose. Under these agreements, the SPE’s (operator) does not own the road, but gets “Toll Collection Rights” in exchange of the construction cost incurred while rendering construction services. Relying on the principles of IFRIC 12 on Service Concession Arrangements, the same has been recognized as intangible assets in the financial statements of the SPE. Since these rights are treated as exchange for construction costs incurred, profit from such contracts is considered as realized. Accordingly, where work are sub-contracted to the holding company and fellow subsidiaries/ associates the intra group transactions pertaining to the BOT contracts and the profits thereon are taken as realized and not eliminated.
- d) In case of associates, where the Company directly or indirectly through subsidiaries holds more than 20% of equity, investments in associates are accounted for using the equity method in accordance with Accounting Standard 23 on Accounting of Investments in Associates in Consolidated Financial Statements” issued by the Institute of Chartered Accountants of India. - f) Minority Interest’s share of net assets / reserves of consolidated subsidiaries is identified and presented in the consolidated balance sheet separate from liabilities and the equity of the Company’s shareholders. Share of minority interest in the preference redemption reserve of subsidiary companies has been reduced from the Share premium of the holding company being an appropriation of the share premium account.
- g) As far as possible, the consolidated financial statement are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company’s separate financial statements. Based on the accounting policy of the holding company, amortization of intangible assets in the subsidiary companies has been recomputed as per the projected Toll revenue over the toll period as specified schedule XIV of the companies act 1956. Accordingly, amortization of ₹ 1,850.43 Lacs (Net) has been increased in the consolidated financial statement for the year ended March 31, 2014 Re-computation of amortization does not have any tax impact as these are done at consolidation level.

Notes Of The Consolidated Financial Statements For Year Ended March 31, 2014

subsidiaries by a private equity investor at a premium. Hence, such amount of share premium is not eliminated has been separately disclosed as "Share Premium on Dilution of Subsidiary Shareholding".
