# Panchtatva

the theory of 5 elements

**EARTH**

**FIRE**

**WATER**

**WIND**

**SPACE**

The word 'panchatatva' originates from Sanskrit, where "panch" stands for five and "tatva" indicates elements. It is believed that all of the manifested world, including the human body, is made by endless permutations and combinations of five basic elements, namely Prithvi (Earth), Agni (Fire), Jal(Water), Vayu (Wind) & Akash (Sky).

**We, at Ashoka Buildcon Ltd. believe that the Company has a balanced combination of the strengths represented by these elements, making it an enterprise that is stable, vibrant, versatile, enterprising and expansive.**

An impressionistic painting of a landscape. The background features dark, layered mountains under a sky with thick, textured brushstrokes in shades of blue and white. The middle ground shows rolling green hills with some small, dark green bushes. The foreground is dominated by vibrant green grass and foliage, with a few small red flowers visible at the bottom. The overall style is expressive and textured, with visible brushwork throughout.

# Stable as earth

In a scenario where the infrastructure sector is under stress, Ashoka Buildcon is **firmly placed with strong financials and a healthy order book.**

# Vibrant as fire

**The Company's dynamism, speed, quality, consistency & innovation give Ashoka Buildcon the ability to accept and overcome challenges. Several seemingly impossible infrastructure projects have been successfully completed by the Company.**

# Versatile as water

Ashoka Buildcon's versatility is reflected in the wide range of its joint ventures. Players like **SBI-Macquarie**, **L&T**, **IDFC**, **SREI** have partnered with Ashoka for execution of prestigious projects that vary in sizes, geographical conditions & difficulty levels.

# Enterprising as wind

Ashoka Buildcon has a track record of being able to  
capture a **first mover advantage in sunrise sectors.**

# Expansive as sky

Ashoka Buildcon is an ever expanding umbrella. It aspires to create a global footprint in the infrastructure development sector through **development of quality infrastructure, employment generation, ethical work culture and CSR initiatives.**

# Dear Shareholders,

At the outset, I would like to thank you for showing trust in the Company in its journey so far. With the help of your support in the QIP the net worth of the Company has grown from Rs. 1054 Crore to Rs. 1680 Crore thereby enabling the Company to bid for various projects.

The year gone continued to be quite robust for the infrastructure sector especially roads where projects more than 10,000 kms. valued at Rs.1 lac Crore were awarded by the Central Government with a promise to award 25,000 kms in 2016-17. Also the Finance Budget 2016 allocated Rs.97,000 Crore for the ensuing year. This entails a tremendous opportunity for the Company to participate and win projects at desired margins.

In the last year Company could bag road projects of Rs. 2,800 Crore. Though, due to teething problems for the projects won, they could not start execution in the year resulting in no growth in EPC revenues in this year, but we are confident that we will make up for the same in the coming year. We are glad to state that we have forayed in overseas project after bagging a road project in Maldives in a JV and hope to perform well in the same. We are glad to state that toll revenues have had robust growth in the last year and with expectation of economy to perform better, the same will continue to grow. We had to terminate one of our minority JV project with L&T viz. Pimpalgaon Nasik Gonde Project due to lack of government support to collect toll. On prudence grounds, we have written off/provided for all the sums we have invested in the project till date. This will stop future losses of the project to the Company.

We continue to ramp up our orders in the current year with the huge opportunity available. Also with thrust on the power T&D sector with the Uday Scheme on the horizon, we expect steady pace of activity in this space too.

With the state of affairs on economic front and our preparedness, we are poised for another cycle of growth.

I thank the Board Members, my Colleagues, the Stakeholders including the Shareholders, Private Equity Partners, Lenders, Employers, Vendors and Employees for all the support and participation in helping us create global footprints in infrastructure.

Thank you,  
With best wishes

Ashok Katariya  
Chairman

### INDUSTRY OVERVIEW

The year 2015 has been a year when the Modi-led government unleashed a slew of initiatives that were directed at changing the landscape and ushering in a much-awaited revival of the infrastructure sector. Various initiatives have been taken to get the stressed roads sector to emerge again as a formidable sub-sector in infrastructure. These include greater emphasis on EPC projects and introduction of the hybrid annuity model for pursuing PPP projects. Also, there have been measures such as an easier exit policy, funding top-up to financially stressed developers and concession period elongation option for delayed projects.

For FY16, NHAI has awarded projects amounting to Rs 541 bn/4171 kms. The NHAI awarded EPC contracts worth Rs 358 bn/3017 kms, awarded BOT contracts worth Rs 108 bn/803 kms and awarded Hybrid Annuity contracts worth Rs 74 bn/351 kms.

This is two-and-a-half time more than the target that was set in 2015-16. It has also set an all-time high target of constructing 41 kms of roads per day in 2016-17, up from the present rate of 17 kms/day.

### BUDGET 2016-17 AIMS AT BIGGER BOOST TO ROAD AND HIGHWAYS

In addition, nearly 50,000 kms of State highways will also be taken up for up-gradation as National Highways. Further, the government has announced steps to re-vitalise PPPs which include:

- Public Utility (Resolution of Disputes) Bill to be introduced during 2016-17 to streamline institutional arrangements for resolution of disputes in infrastructure related construction contracts, PPP and public utility contracts;

- Guidelines for renegotiation of PPP Concession Agreements to be issued; and

## CHALLENGES RISKS & CONCERNS

- Industry/ policy risk: The Company's business is highly dependent on road and bridge projects in India undertaken or awarded by governmental authorities and other entities funded by governments. Any change in government policies resulting in a decrease in the amount of road and bridge projects undertaken or a decrease in private sector participation in road and bridge projects adversely affects our business and results of operations. Our business may be affected by changes in interest rates, changes in Government policy, taxation, exchange rates and controls, social and civil unrest and political, economic or other developments in or affecting India.
- Project risk: Infrastructure projects involve agreements that are long-term in nature (as much as three years in EPC contracts and around 25 years in Design, Build, Finance, Operate and Transfer (DBFOT) road projects) All long term projects have inherent risks associated with them and involve variables that may not necessarily be within our

control. These include inflation, interest rates movements, liquidity, commodity and oil prices, governance, construction delays, material shortages, unanticipated cost increases, cost overruns, inability to negotiate satisfactory arrangements with joint venture partners, and disagreements with our joint venture partners.

We are increasingly bidding for large-scale infrastructure projects. There are various risks associated with the execution of large-scale projects. Managing large-scale integrated projects may also increase the potential relative size of cost overruns and negatively affect our operating margins. In addition, we may need to execute large-scale projects through joint ventures with other companies, which expose us to the risk of default by our Joint Venture Partners.

- Traffic risk: The Company's business depends substantially on accuracy of traffic estimates. Any material decrease in actual traffic volume and our forecast could have material adverse effect on cash flows, results of operation and financial condition.
- Input and labour cost risk: Cost of Input materials such as Bitumen depends upon the International Market for Oil. As Bitumen is a major raw material, any Change in the Oil prices affects the overall cost of the projects. The availability of labour for execution of projects is also a major risk factor.

## HUMAN RESOURCES DEVELOPMENT

We believe that our continued success will depend on our ability to attract and retain key personnel with relevant skills and experience. The attrition rate among our top management has been negligible. The Company has robust process of human resource development. Ashoka Buildcon Limited, along with Subsidiaries, has 2565 employees at various levels. We have a HR Policy in place and encouraging working environment. The Company has continued to focus on various aspects like employee training, welfare and safety thereby maintaining a constructive relationship with employees.

Auditors invite attention to Note 27(XIII) of the financial results regarding the provision made against / write offs of the exposure of the Company in one of its associates, PNG Tollway Limited due to the termination of the service concession agreement with NHAI by the associate company. Our opinion is not modified in respect of these matters.

## ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT (Refer to in paragraph 5 (ii)(f) of our report of even date)

### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Ashoka Buildcon Limited ("the Company") as of 31<sup>st</sup> March, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial

reporting.

### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### (Referred to in paragraph 7(f) of our report of even date)

#### Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as at and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of Ashoka Buildcon Limited ("the Holding Company"), comprising of the Holding Company, its subsidiaries, associates and joint ventures hereinafter referred to as "the Group", as of that date.

#### Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company, its subsidiary companies, associates and Joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective companies policies, the safeguarding of their assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these internal financial controls over financial reporting based on our audit. We have placed reliance on the audit reports issued by auditors of subsidiary companies, associates and joint ventures, referred to, in the paragraph on 'Other Matters' stated below and on the basis of such reliance, we have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

An audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. An audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditor in terms of their reports referred to in the paragraph on 'Other Matters' below, is sufficient and appropriate to provide a basis for our audit opinion on the Groups internal financial control system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, and placing reliance on audit reports on the "Internal Financial Control over financial reporting" issued by the auditors of the subsidiary companies, associates and joint ventures, which are companies incorporated in India, the Group has in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the respective companies in the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
