### INDEPENDENT AUDITOR'S REPORT

To the Members of Ashoka Concessions Limited

Report on the Audit of the Standalone Financial Statements

### Opinion

We have audited the accompanying standalone financial statements of Ashoka Concessions Limited ("the Company"), which comprise the Balance sheet as at March 31, 2023, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement, the Statement of Changes in Equity for the year then ended and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its loss including other comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

### Key audit matters

How our audit addressed the key audit matter

Impairment of Company's Interest in subsidiaries and associates (as described in Note 6 and 16 of the standalone financial statements)

As per requirement of Ind AS 36 assets", the "Impairment of management at each reporting period there are reviews whether indicators of impairment of the investments in subsidiaries and where exist, impairment indicators management estimates the recoverable amounts of the investments, being higher of fair value less costs of disposal and value in use.

The value in use of the underlying businesses is determined based on the discounted cash flow projections. Significant judgements are required to determine the key assumptions used in the discounted cash flow models, such as toll revenue, major maintenance expenditure and discount rates based on management's view of future business prospects.

Certain investments/loans are classified as held for sale in accordance with Ind AS 105 "Non-current Assets Held for Sale and Discontinued Operations" and accordingly the investments / loans given to these subsidiaries are measured at lower of carrying amount and fair value less costs to sell.

Further, during the current year, the Company has recorded reversal of impairment on certain investments (refer Note 48 to the standalone financial statements).

impairment the Accordingly, Company's interest in subsidiaries and associates, was determined to be a key audit matter in our audit of the standalone financial statements.

Our audit procedures included, among others the following:

- ▶ We assessed the Company's accounting policies with respect to impairment and classification of assets and liabilities as held for sale in accordance with Ind AS 36 "Impairment of assets" and Ind AS 105 on "Non-Current Assets Held for sale and Discontinued operation" respectively.
- ▶ We obtained an understanding of the process, evaluated the design, and tested the operating effectiveness of the controls over management's assessment of impairment indicators of interest in subsidiaries and associates, and where impairment indicators exists, the controls over the management estimate for the recoverability of these investments:
- We performed the following test of details:
  - We obtained management's assessment on impairment and assessed the reasonableness of the carrying value of the underlying assets.
  - We assessed the assumptions around the key drivers of the cash flow forecasts including toll revenue, major maintenance expenditure and discount rates.
  - We discussed potential changes in key drivers as compared to previous year/actual performance with management in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable.
  - We involved valuation specialist to assess the valuation methodology including the key assumptions used in cashflow forecasts for investments.
  - We obtained and analysed the sensitivity analysis on the assumptions used by the management. Further, we also involved our internal valuation specialists on a selected basis.
  - In respect of investments which are classified as asset held for sale during the year, we have verified the computation of fair value less costs

	We assessed the disclosures in accordance with Ind AS 36 "Impairment of assets" and Ind AS 105 "Non-Current Assets held for sale and Discontinued operation" made in the standalone financial statements.

#### Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board of Director's report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Dobtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the standalone financial statements in place and the operating effectiveness of such controls.
- ► Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Chartered Accountants

Ashoka Concessions Limited Page 5 of 15

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

We have audited the internal financial controls with reference to standalone financial statements of Ashoka Concessions Limited ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

### Meaning of Internal Financial Controls with Reference to these Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

# Inherent Limitations of Internal Financial Controls With Reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

2 Note 2: Basis of preparation

The financial statements are prepared in accordance with Indian Accounting Standards (Ind-AS) as notified by Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) read with section 133 of the Companies Act, 2013 (the Act) (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (Ind AS compliant Schedule III) as applicable to the Company except for Statement of Cash Flow). The Statement of Cash Flow has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows".

The financial statements are prepared on a historical cost basis, except for certain financial assets and liabilities (refer accounting policy regarding financial instruments) which have been measured at fair value. The accounting policies have been consistently applied from previous year except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are presented in Indian rupees (₹) and all the values are rounded of to the nearest lakhs, except when otherwise indicated. "Per share" data is presented in Indian Rupees upto two decimals places.

### 3 Note 3: Summary of significant accounting policies

### 3.01 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current assets.

### ASHOKA CONCESSIONS LIMITED CIN: U45201MH2011PLC215760

### NOTES TO IND AS STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

### All amounts are in ₹ lakhs unless otherwise stated

A liability is current when:

- It is expected to be settled in normal operating cycle

- It is held primarily for the purpose of trading

- It is due to be settled within twelve months after the reporting period, or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current Liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle for the purpose of current / non current classification of assets and liabilities.

#### 3.02 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 -Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

### CIN: U45201MH2011PLC215760

### NOTES TO IND AS STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

All amounts are in ₹ lakhs unless otherwise stated

At each reporting date, management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company accounting policies. For this analysis, management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

Refer notes the accompanying standlone financial statements for disclosured on :

- a) valuation methods, significant estimates and assumptions
- b) Financial instruments (including those carried at amortised cost).
- c) Quantitative disclosure of fair value measurement hierarchy.

### 3.03 Revenue recognition

### Revenue from contract with customer

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured based on transaction price, which is fair value of the consideration received or receivable. Transaction price is recognized based on price specified in the contract, net of variable consideration. The specific recognition criteria described below must also be met before revenue is recognised.

### **Service Contracts**

For service contracts (including maintenance contracts) in which the company has the right to consideration from the customer in an amount that corresponds directly with the value to the customer of the company's performance completed to date, revenue is recognized when services are performed and contractually billable.

### Revenue recognition under Service Concession Arrangements

The Company constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time. These arrangements may include infrastructure used in a public-to-private service concession arrangement for its entire useful life.

For service contracts (including maintenance contracts) in which the Company has the right to consideration from the customer in an amount that corresponds directly with the value to the customer of the Company's performance completed to date, revenue is recognized when services are performed and contractually billable. For all other service contracts, the Company recognizes revenue over time using the cost-to-cost percentage-of-completion method. Service contracts that include multiple performance obligations are segmented between types of services. For contracts with multiple performance obligations, the Company allocates the transaction price to each performance obligation using an estimate of the standalone selling price of each distinct service in the contract.

When it is probable that total contract costs will exceed total contract revenue, expected loss, if any, on a contract is recognised as expense in the period in which it is foreseen, irrespective of the stage of completion of the contract.

### 3.04 Property, Plant and Equipment

The initial cost of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes, and any directly attributable costs of bringing an asset to working condition and location for its intended use. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. The Company has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition.

### NOTES TO IND AS STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

All amounts are in ₹ lakhs unless otherwise stated

#### 3.05 Depreciation on property, plant and equipment

Depreciation on fixed assets is calculated on a written down value method using the rates arrived at based on the useful lives prescribed under the Schedule II to the Companies Act, 2013.

The Company, based on assessment made by technical expert and management estimate, depreciates certain items of Plant and equipment and Data Processing equipments' over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

#### 3.06 Intangible assets

Intangible assets are measured on initial recognition at the amounts payable to National Highway Authorities of India (NHAI) for securing toll collection rights. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised over the period of toll collection right of 1 year on straight line basis.

#### 3.07 Taxes

#### Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered. In assessing the recoverability of deferred tax assets, the Company relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports.

### CIN: U45201MH2011PLC215760

All amounts are in ₹ lakhs unless otherwise stated

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax as sets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified period). In the year, in which the tax credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the Statement of profit and loss and shown as Unused Tax credit. The Company reviews the same at each balance sheet date and writes down the carrying amount of unused tax credit to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

3.08 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

### 3.09 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

3.1 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

### 3.11 Retirement and other employee benefits

i. Defined contribution plan

Retirement benefits in the form of provident fund are a defined contribution scheme and the contributions are charged to the Statement of profit and loss of the period when the employee renders related services. There are no other obligations other than the contribution payable to the respective authorities.

All amounts are in ₹ lakhs unless otherwise stated

ii. Defined benefit plan

The company operates defined benefit plans for its employees "Group gratuity cash accumulation scheme" administered by Life Insurance Corporation of India. The costs of providing benefits under these plans are determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for plan using the projected unit credit method.

#### iii. Remeasurements

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

#### iv. Leave encashment

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

#### 3.12 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Trade receivable that donot contain a significant financing component or which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to accounting policies in section Revenue from contracts with customers.

### NOTES TO IND AS STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

All amounts are in ₹ lakhs unless otherwise stated

### a. Equity investments in Subsidiaries, Associates and Joint Venture

The Company accounts for its investment in subsidiaries, joint ventures and associates and other equity investments in subsidiary companies at cost in accordance with Ind AS 27 - 'Separate Financial Statements'.

Investment in Compulsory Convertible Debentures of subsidiary company is treated as equity investments, since they are convertible into fixed number of equity shares of subsidiary. Investment made by way of Financial Guarantee contracts in subsidiary, associate and joint venture companies are initially recognised at fair value of the Guarantee.

Interest free loans given by the Company to its subsidiaries, associates and joint venture are in the nature of perpetual debt which are repayable at the discretion of the borrowers. The borrower has classified the said loans as equity under Ind AS - 32 'Financial Instruments Presentation'. Accordingly, the Company has classified this investment as Equity Instrument and has accounted at cost as per Ind AS - 27 'Separate Financial Statements'.

### b. Equity investments (other than investments in subsidiaries, associates and joint venture)

All equity investments falling within the scope of Ind-AS 109 are mandatorily measured at Fair Value through Profit and Loss (FVTPL) with all fair value changes recognized in the Statement of Profit and Loss.

The Company has an irrevocable option of designating certain equity instruments as FVOCI. Option of designating instruments as FVOCI is done on an instrument-by-instrument basis. The classification made on initial recognition is irrevocable.

If the Company decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument are recognized in Statement of Other Comprehensive Income (SOCI). Amounts from SOCI are not subsequently transferred to profit and loss, even on sale of investment.

### Debt instruments at amortised cost

A financial assets is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. All the Loans and other receivables under financial assets (except Investments) are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Trade receivables do not carry any interest and are stated at their nominal value.

After initial measurement such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

#### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories;

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)

All amounts are in ₹ lakhs unless otherwise stated

#### Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material lay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a. Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance.
- b. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 and Ind AS 18

The company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables and Other financial assets.

#### Trade receivable:

The company Management has evaluated the impairment provision requirement under IND AS 109 and has listed down below major facts for trade and other receivables impairment provisioning. The receivable from companies are considered to be good and there are neither been any past instances of default and also management doesn't expect any default in case of Company receivables.

### NOTES TO IND AS STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

All amounts are in ₹ lakhs unless otherwise stated

#### Other Financial Assets:

Other Financial Assets mainly consists of Loans to employees and Security Deposit and other deposits, interest accrued on Fixed Deposits, loans to related party, Deposit money receivable from NHAI, and other receivables and advances measured at amortised cost.

Following are the policy for specific financial assets:-

Type of financial asset	
Security Deposit	Security deposit is in the nature of statutory deposits like electricity, telephone deposits. Since they are kept with Government bodies, there is low risk.
Loans and advances to related party	Loan and advances to related parties are considered to be good and there are neither been any past instances of default and also management doesn't expect any default in case of Company receivables except mentioned in Notes.
Security deposit from NHAI	Security deposit receivable from NHAI on account of toll collection contract is carried at amortised cost as the deposit is for short term (generally one year).

#### **Financial Liabilities**

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, trade payables and other payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and other payables.

### Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

### Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. The company has borrowings at fixed and floating rates. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the transaction cost amortisation process. This category generally applies to borrowings.

### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

CIN: U45201MH2011PLC215760

All amounts are in ₹ lakhs unless otherwise stated

**Cffsetting of financial instruments** 

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

3.13 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term investments, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

3.14 Earning per share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

3.15 Segment information

The Company is engaged in "Road Infrastructure Projects" which in the context of Ind AS 108 "Operating Segment" is the only segment. The Company's activities are restricted within India and hence no separate geographical segment disclosure is considered necessary.

3.16 Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

#### 3.17 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Building - 3 to 5 Years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Right of use asset are subject to impairment.

#### ii. Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

iii. Short Term leases and lease of low value of assets

The Company applies the short-term lease recognition exemption to its short-term leases of machinery, equipment and buildings. It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue are period in which they are earned.

### NOTES TO IND AS STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

All amounts are in ₹ lakhs unless otherwise stated

### 3.18 Significant accounting judgement, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

### Estimates and assumptions

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and future periods are affected.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year is in respect of useful lives of property, plant and equipment, useful life of intangible assets, valuation of deferred tax assets, provisions and contingent liabilities. The Company based on its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

### Impairment of financial assets

The impairment provision for financial assets are based on assumptions about risk of default and expected loss rates. The company judgement in making these assumptions and selecting the inputs to the impairment calculation based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

### Impairment of Subsidiaries and associates

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on-available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget generally covering a period of the concession agreements using long terms growth rates and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. Further, the Company considers on the basis of probability assessment its claim from various authorities in the impairment assessment of subsidiaries and associates.

### Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Refer accompanying notes to the standalone financial statement for further details.

### NOTES TO IND AS STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2023

All amounts are in ₹ lakhs unless otherwise stated

### 3.19 Impairment of Non-Financial Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount and the impairment loss is recognized in the Statement of Profit and Loss. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. In assessing value is use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assumptions of the time value of money and the risks specified to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

#### 3.20 Assets held for sale

The Company classifies non-current assets and disposal groups as 'Held For Sale' if their carrying amounts will be recovered principally through a sale rather than through continuing use and sale is highly probable i.e. actions required to complete the sale indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn.

Non-current assets held for sale and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet. Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

### 3.21 The Code on Social Security, 2020

The Code on Social Security 2020 ('Code') has been notified in the Official Gazette on 29th September, 2020. The Code is not yet effective and related rules are yet to be notified. Impact if any of the change will be assessed and recognized in the period in which said Code becomes effective and the rules framed thereunder are notified.

### 3.22 Standards notified but not yet effective

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated March 31, 2023 to amend the following Ind AS which are effective from April 01, 2023.

### (i) Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments are effective for annual reporting periods beginning on or after 1 April 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period.

The amendments are not expected to have a material impact on the Company's financial statements.

### (ii) Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to Ind AS 1 are applicable for annual periods beginning on or after 1 April 2023. Consequential amendments have been made in Ind AS 107.

The Company is currently revisiting their accounting policy information disclosures to ensure consistency with the amended requirements.

All amounts are in ₹ lakhs unless otherwise stated

### (iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability should also be recognised for all deductible and taxable temporary differences associated with leases and decommissioning obligations. Consequential amendments have been made in Ind AS 101. The amendments to Ind AS 12 are applicable for annual periods beginning on or after 1 April 2023.

The amendments are not expected to have a material impact on the Company's financial statements.

#### Notes

i) The Company had entered into Share Subscription cum Purchase agreements ("SSPA") for sale of its entire stake in five of its wholly owned subsidiaries namely Ashoka Belgaum Dharwad Tollway Limited ('ABDTL'), Ashoka Highways (Durg) Limited ('AHDL'), Ashoka Highways (Bhandara) Limited ('AHBL'), Ashoka Dhankuni Kharagpur Tollway Limited ('ADKTL'), Ashoka Sambalpur Baragarh Tollway Limited ('ASBTL') for an aggregate amount of INR 1337 crores which was subject to requisite approvals and adjustment on account of changes in working capital as at closing date. Accordingly, the investments and loan given to these entities were classified as assets held for sale.

Subsequent to the year end, the Company and the Investor have mutually agreed to terminate the SPA. The SPA has been terminatied, however, management is fully comitted to identify and look for active buyers and continues with its intention to sell the asset. Accordingly, the balances of said investments made, loans given etc continue to be disclosed as held for sale.

ii) During the year, the Company entered into a Share Purchase Agreement (SPA) for sale of its investment in Jaora Nayagaon Toll Road Company Private Limited (an associate of the Company), subject to certain adjustments as specified in SPA towards its equity investments and loans taken from the said associate. Accordingly, the carrying value of investment and amounts payable to this entity are classified as assets/liabilities held for sale.

iii) The Holding Company and the Company are at advanced stages in respect of divestment of their entire stake in the subsidiaries, engaged in construction and operation of Road Projects on Hybrid Annuity Mode (HAM) basis awarded by National Highway Authority of India ('NHAI'). Considering, high probability of the sale getting completed in next 12 months, the investments made, loans given to these subsidiaries (completed projects) are classified as held for sale.

Note 38: Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of Equity shares outstanding during the period plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:  Particulars	For the year ended March 31, 2023	For the year ended March 31, 2022

Note 46: Financial risk management objectives and policies

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors have the overall responsibility for the establishment and oversight of the Company's risk management framework. In performing its operating, investing and financing activities, the Company is exposed to the Credit risk, Liquidity risk and Market risk.

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk namely interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings and deposits.

The following table summaries the carrying amount of financial assets and liabilities recorded at the end of the year by categories:

The sensitivity analyses in the following sections relate to the position as at March 31, 2023 and March 31, 2022. The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt. The following assumption is considered in calculating the sensitivity analyses:

- The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks.

This is based on the financial assets and financial liabilities held at March 31, 2023 and March 31, 2022.

#### Interest Rate Risk

The infrastructure development and construction business is capital intensive and therefore the Company is exposed to interest rate risks. The Company's infrastructure development and construction projects are funded to a large extent by debt and any increase in interest expense may have an adverse effect on our results of operations and financial condition. The Company's current debt facilities carry interest at variable rates with the provision for periodic reset of interest rates. As at March 31, 2023 and March 31, 2022, the majority of the company indebtedness was subject to variable interest rates.

The interest rate risk exposure is mainly from changes in floating interest rates. The interest rate are disclosed in the respective notes to the financial statement of the Company. The following table analyse the breakdown of the financial assets and liabilities by type of interest rate:

Particulars	Note Reference	As at	As at

#### Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including debt and overdraft from banks at an optimised cost.

The Company's maximum exposure relating to financial liabilities along with the maturity profile and expected outflow of undiscounted cash flow is provided in table below:

Particulars	Note Reference	On demand	Less than 1 year	1 to 5 years	>5 years	Total

At present, the Company expects to repay all liabilities at their contractual maturity. In order to meet such cash commitments, the operating activity and the investing activities are expected to generate sufficient cash inflows (Refer note 16 for further details)

#### Credit risk on Financial Assets

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances.

The trade receivables majorly comprises of receivables from the subsidiaries of the Company. The amount from trade receivable is received on timely basis within the credit period, which is about 30 to 90 days. Since the primary customer is subsidiary the credit risk is remote. The provision matrix takes into account available external and internal credit risk factors such as Companies historical experience for customers.

Financial assets that are potentially subject to concentrations of credit risk and failures by counter-parties to discharge their obligations in full or in a timely manner consist principally of cash, cash equivalents and trade and other receivables. Credit risk on cash balances with Bank are limited because the counterparties are entities with acceptable credit ratings. The exposure to credit risk for trade and other receivables by type of counterparty was as follows:

At present, the Company expects to repay all liabilities at their contractual maturity. In order to meet such cash commitments, the operating activity and the investing activities are expected to generate sufficient cash inflows (Refer note 16 for further details)

#### Credit risk on Financial Assets

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances.

The trade receivables majorly comprises of receivables from the subsidiaries of the Company. The amount from trade receivable is received on timely basis within the credit period, which is about 30 to 90 days. Since the primary customer is subsidiary the credit risk is remote. The provision matrix takes into account available external and internal credit risk factors such as Companies historical experience for customers.

Financial assets that are potentially subject to concentrations of credit risk and failures by counter-parties to discharge their obligations in full or in a timely manner consist principally of cash, cash equivalents and trade and other receivables. Credit risk on cash balances with Bank are limited because the counterparties are entities with acceptable credit ratings. The exposure to credit risk for trade and other receivables by type of counterparty was as follows:

The average credit period taken to settle trade payables is about 30 to 90 days. The other payables are with short-term durations. The carrying amounts are assumed to be a reasonable approximation of fair value.

#### Cash and cash equivalents

Cash and cash equivalents (excluding cash on hand) of ₹ 455.18lakhs as at March 31, 2023 (March 31, 2022: ₹ 24.73 lakhs). The cash and cash equivalents (excluding cash on hand) are held with bank and financial institution counterparties with good credit rating.

#### Investments & Loan

Investments & Loan are with only group companies in relation to the project execution hence the credit risk is very limited.

#### Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company top management in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Company's board of directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Note 47 (a): PNG Tollways Limited ('PNG'), an associate of the Company, had terminated its service concession agreement with National Highways Authority of India ('NHAI') and claimed the terminated payment in 2016. Further, the majority partner had claimed shortfall funding from the Company for which arbitration proceedings were going on. During the previous year the said arbitration proceedings were completed and the Company was directed to make payment to majority partner amounting to ₹ 5,733 lakhs along with the interest. NHAI had settled the termination payment which was apportloned between the Company and majority partner after discharging the lender's obligation. Accordingly, the Company had cleared its dues during the previous year amouting to ₹ 1,546.38 lakh and reversal of ₹ 178.52 lakh was recognised as other income in the previous year.

Note 47 (b): During the earlier years, the Company had received a show cause cum demand notice of ₹ 320.05 lakhs for service tax on difference between the turnover of services as per Value Added Tax returns and Service tax returns for financial year 2016-17 filed by the Company. The management based on legal evaluation assessed that there is no demand payable and also the likelihood of the liability is remote. Hence the same is not considered as contingent liability as at reporting dates.

#### Notes

a) Pursuant to SSPA entered by the Company in previous year, the Company had accounted the investments made in and loans given to the said entities at lower of its carrying amount and estimated realisable value. Accordingly, the Company had recognised a net impairment charge on of Rs. 63,100 lakhs (Impairment charge of INR 68,600 lakhs in QE Dec 21, reversal of INR 5,500 lakhs on receipt of claim by subsidiary company from NHAI in QE March 22) during the year ended March 31, 2022 and disclosed it as an exceptional item.

During the year, one of the subsidiary entered into a Settlement Agreement with National Highway Authority of India (NHAI) towards its various claims. Pursuant to this settlement agreement, the recoverable value of the said subsidiary from the buyer increased basis the signed SSPA and accordingly, impairment provision amounting to INR 3,262.18 lakhs is reversed and disclosed as an exceptional item.

- b) The Company has performed an impairment assessment of its investments in certain subsidiaries. As a result of increase in cash flows for HAM projects on account of increase in interest rates, the Company has assessed the recoverable value and reversed the impairment charge of INR 7,000 lakhs recognised in earlier years and disclosed it as an exceptional item.
- c) The Company during the previous year had entered into a settlement agreement with its Holding Company for waiving interest accrued amounting INR 23,077.63 lakhs on loans taken from the Holding Company and has therefore recognised such interest waiver as income in the Statement of profit and loss.

Note 50 : Capital management

The primary objective of the Company's capital management is to maximise the shareholder value. Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year. No changes were made in the objectives, policies or processes during the year ended March 31, 2023 and March 31, 2022.

The Company monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt. For the purpose of the Company's capital management, total equity includes issued equity capital, compulsorily convertible debentures, share premium and all other equity reserves attributable to the equity holders of the parent as disclosed in balance sheet. Net debt is calculated as total borrowings less Cash and cash equivalents as disclosed in balance sheet.
