

**INDEPENDENT AUDITOR'S REPORT****To the Members of ASHOKA HIGHWAYS (DURG) LIMITED****Report on the audit of the Ind AS Financial Statements****Opinion**

We have audited the Ind AS Financial Statements of **ASHOKA HIGHWAYS (DURG) LIMITED** ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March, 2025 and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the Ind AS Financial Statements, including a summary of material accounting policy information and other explanatory information for the year ended on that date.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March, 2025 and its profits, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Information other than the Ind AS Financial Statements and Auditor's Report thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, but does not include the Ind AS Financial Statements and our auditor's report thereon.

Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

## **Responsibility of Management and Those Charged with Governance for the Ind AS Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with Standards on Auditing ("SAs") will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Ind AS Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in:

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the Ind AS Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the 'Annexure A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in Para 2(g)(vi) of "Report on Other Legal and Regulatory Requirements" section of our report.
  - c) The Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
  - d) In our opinion, the aforesaid Ind AS Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended.

- e) On the basis of the written representations received from the directors as on 31<sup>st</sup> March, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on 31<sup>st</sup> March, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to Ind AS Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" which expresses an unmodified opinion.
- g) With respect to the Other Matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has no pending litigation which would impact its financial position except those disclosed in Ind AS Financial Statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
  - iv.
    - a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
    - b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
    - c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
  - v. The Company has not declared or paid any dividend during the year.
  - vi. Based on our examination which included test checks, the company has used TALLY PRIME as the accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same is operated throughout the year for all relevant transactions recorded in the software system except that the current accounting application does not support maintenance of logs of backups taken on a daily basis as described in Note 50 to the accompanying Ind AS financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

3. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended; In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid the managerial remuneration during the year.

**ANNEXURE - B TO THE INDEPENDENT AUDITORS' REPORT**  
**(Referred to in our Report of even date)****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to Ind AS Financial Statements of **ASHOKA HIGHWAYS (DURG) LIMITED** ("the Company") as of 31<sup>st</sup> March, 2025 in conjunction with our audit of the Ind AS Financial Statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Ind AS Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to Ind AS Financial Statements issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Ind AS Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Ind AS Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Ind AS Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Ind AS Financial Statements included obtaining an understanding of internal financial controls with reference to Ind AS Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Ind AS Financial Statements.

**Meaning of Internal Financial Controls with reference to Ind AS Financial Statements**

A Company's internal financial control with reference to Ind AS Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to Ind AS Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Ind AS Financial Statements.

**Inherent Limitations of Internal Financial Controls with reference to Ind AS Financial Statements**

Because of the inherent limitations of internal financial controls with reference to Ind AS Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Ind AS Financial Statements to future periods are subject to the risk that the internal financial control with reference to Ind AS Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has in all material respects, an adequate internal financial controls system with reference to Ind AS Financial Statements and such internal financial controls with reference to Ind AS Financial Statements were operating effectively as at 31<sup>st</sup> March, 2025, based on the internal control with reference to Ind AS Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls With reference to Ind AS Financial Statements issued by the Institute of Chartered Accountants of India.

**1 Statement of Significant Accounting policies and Other Explanatory Notes**

---

**I Corporate profile**

The Ashoka Highways (Durg) Limited, the Company, is a Special Purpose Vehicle (SPV) incorporated on 15th March 2007 under the provisions of the Companies Act 1956 by Ashoka Buildcon Limited, in pursuance of the contract with National Highway Authority Limited (NHAI) to design, engineering, finance, construction, operation and maintenance of End of Durg Bypass -Chhatisgarh / Maharashtra Border Section from km 322.400 to km 405.000 of NH-6 under NHDP Phase IIIA on Build, Operate and Transfer (BOT) basis. The concession period is 20 (Twenty) Years including Construction period of 30 (Thirty) Months. The construction of the entire project has been sub-contracted to the parent company Ashoka Buildcon Limited as an EPC contractor.

The financial statements were authorised for issue in accordance with a resolution of the directors on 17 May 2025.

**II Material Accounting Policies**

**(i) Basis of preparation**

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended thereafter.

The financial statements for the year ended March 31, 2025 are prepared in accordance with Ind AS .

The standalone financial statements are presented in INR which is also Companies Functional Currency and all values are rounded to the nearest lakhs, except otherwise indicated.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The classification of assets and liabilities of the Company is done into current and non-current based on the operating cycle of the business of the Company. The operating cycle of the business of the Company is less than twelve months and therefore all current and non-current classifications are done based on the status of realisability and expected settlement of the respective asset and liability within a period of twelve months from the reporting date as required by Schedule III to the Companies Act, 2013.

**(ii) Use of estimates**

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of circumstances surrounding the estimates. Changes in estimates are reflected in the financial statement in the period in which changes are made and if material, their effects are disclosed in the notes to the financial statements.

**(iii) Summary of Material accounting policies**

The operating cycle of the business of the Company is twelve months from the reporting date as required by Schedule III to the Companies Act, 2013.

**a) Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

**An asset is current when :**

- It is expected to be realised or intended to be sold or consumed in normal operating cycle or
- It is held primarily for the purpose of trading or
- It is expected to be realised within twelve months after the reporting period, or
- It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

**A liability is current when :**

- It is expected to be settled in normal operating cycle or
- It is held primarily for the purpose of trading or
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**1 Statement of Significant Accounting policies and Other Explanatory Notes**

---

**b) Revenue Recognition**

Revenue is recognised upon satisfaction of separate performance Obligation as per the Contract with Customers.

**i Revenue from Operation**

The Company is rendering Construction and Maintenance Services to NHAI under the DBFOT.

To recognize revenue, the Company applies the following five-step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligation in the contract, and (5) recognize revenue when a performance obligation is satisfied.

At contract inception, The company assesses its promise to transfer services to a customer to identify separate performance obligations. The Company applies judgment to determine whether each service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised services are combined and accounted as a single performance obligation. For performance obligations where control is transferred over time, revenue is recognized by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment and is based on the nature of the services to be provided. The method for recognizing revenues and costs depends on the nature of the services rendered.

For Recognition of Revenue, the Company has identified its performance obligation as Construction Services activity and Maintenance activity.

Maintenance after COD date till the tenure of the Project will be recognised over time proportionately over the concession period on the basis of the allocation of the transaction price over this performance obligation.

Periodic Maintenance which is required to be done as per the service concession agreement is not recognised as a separate Obligation since the same is required to be done on a strength test.

Finance income is recognised on the basis of the IRR considered in the project.

Utility shifting Income is recognised as and when the work is completed and the same is certified by the Client.

**ii Interest Income**

Interest income from financial asset is recognised using effective interest rate method.

**c) Property, Plant and Equipment (PPE)**

i Property, Plant and Equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price inclusive of taxes, commissioning expenses, etc. upto the date the asset is ready for its intended use.

ii Significant spares which have a usage period in excess of one year are also considered as part of Property, Plant and Equipment and are depreciated over their useful life.

iii Borrowing costs on Property, Plant and Equipments are capitalised when the relevant recognition criteria specified in Ind AS 23 Borrowing Costs is met.

iv Decommissioning costs, if any, on Property, Plant and Equipment are estimated at their present value and capitalised as part of such assets.

vi An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

vii The residual values and useful lives of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

viii Leasehold improvements is amortized on a straight line basis over the period of lease.

**d) Financial Asset**

The Company recognises its expenditure incurred on the project as a financial asset in accordance with the principles laid down in Appendix D of Ind AS 115, Service Concession Agreements. The project satisfies the test of Financial Asset.

**1 Statement of Significant Accounting policies and Other Explanatory Notes**

---

**e) Borrowing costs**

All borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**f) Investments**

Current Investments are accounted on fair value value with changes in Profit and Loss account.

**g) Taxes**

**Current Income Tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the country. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

**h) Deferred Tax**

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

For items recognised in OCI or equity, deferred / current tax is also recognised in OCI or equity.

**i) Earnings per share**

Earnings per share is calculated by dividing the net profit or loss before OCI for the year by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**j) Provisions, Contingent Liabilities and Contingent Assets**

**i Provisions**

The Company recognizes a provision when: it has a present legal or constructive obligation as a result of past events; it is likely that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

**ii Contingent liabilities and Contingent Assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent assets is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements. Contingent liabilities and contingent assets are reviewed at each balance sheet date.

**k) Employee Benefits**

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

Gratuity, a defined benefit obligation is provided on the basis of an actuarial valuation made at the end of each year/period on projected Unit Credit Method.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

**1 Statement of Significant Accounting policies and Other Explanatory Notes**

---

Past service costs are recognised in profit or loss on the earlier of:

- ▶ The date of the plan amendment or curtailment, and
- ▶ The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

**Termination Benefits**

Termination benefits are payable as a result of the company's decision to terminate employment before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The company recognizes these benefits when it has demonstrably undertaken to terminate current employees' employment in accordance with a formal detailed plan that cannot be withdrawn, or to provide severance indemnities as a result of an offer made to encourage voluntary redundancy. Benefits that will not be paid within 12 months of the balance sheet date are discounted to their present value.

**l) Cash and cash equivalents**

Cash and cash equivalents include cash in hand, demand deposits in banks and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown within bank borrowings in current liabilities on the balance sheet.

**m) Fair Value Measurement**

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
  - ▶ In the absence of a principal market, in the most advantageous market for the asset or liability
- The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

**n) Financial instruments**
**Financial Assets & Financial Liabilities**
**Initial recognition**

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

**Non-derivative financial instruments**
**Subsequent measurement**
**Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

**Financial assets at fair value through profit or loss**

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

**Financial liabilities**

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**o) Leases**

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

The Company decided not to apply the requirements in paragraphs 22–49 of IND AS 116 to either short-term leases or leases for which the underlying asset is of low value, the Company shall recognise the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis. The Company shall apply another systematic basis if that basis is more representative of the pattern of the Company's benefit.

**C Recent pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On May 7, 2025, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2025, as below:

**i) Ind AS 21 - Effects of Changes in Foreign Exchange Rates**

The Ministry of Corporate Affairs has amended Ind AS 21 to clarify how entities should assess and disclose when a currency is not exchangeable. Entities must now estimate spot exchange rates using observable data or alternative methods if direct exchange is not possible. Additional disclosures are required, including estimation techniques, exchange restrictions, and financial impact. These amendments apply to annual reporting periods beginning on or after 1 April 2025.

The Company applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on trade receivables and contract assets. The Company follows the simplified approach for recognition of impairment allowance on trade receivables and contract assets. The application of the simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment allowance based on lifetime ECLs at each reporting date. ECL impairment loss allowance (or reversal) recognized during the period is recognized in the Statement of Profit and Loss. The amount is reflected under the head "Other expenses" in the Statement of Profit and Loss.

**28 Deferred Taxation & MAT**

Provision for the deferred tax liability is not recognised since the timing difference (on account of excess of depreciation allowable under income tax law over depreciation as per books) originating in the current period is capable of reversal within the tax holiday period.  
The company has not recognized Deferred Tax Asset arising on account of timing difference of loss carried forward under the Income Tax Act, in the books of accounts because there is no virtual certainty that sufficient future taxable income will be available against which such Deferred Tax Asset can be realized. As a matter of prudence, the Company has not recognized deferred tax asset on such losses.  
The company has not recognized MAT credits as there is no certainty that it will pay tax under the normal provisions.

**36 In the opinion of the Board of Directors, all the assets including fixed assets have value on realisation in the ordinary course of business at least equal to the amount at which they are stated in the balance sheet.**

**37 Significant accounting judgements, estimates and assumptions**

The financial statements require management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosures of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

**Judgements**

In the process of applying the company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the separate financial statements.

**Taxes**

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

**Defined benefit plans (gratuity benefits)**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. For plans operated outside India, the management considers the interest rates of high quality corporate bonds in currencies consistent with the currencies of the post-employment benefit obligation with at least an 'AA' rating or above, as set by an internationally acknowledged rating agency, and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are excluded from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality corporate bonds.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

<b>Total Financial Liabilities</b>		<b>14,238.74</b>	<b>14,239.66</b>	<b>21,130.52</b>	<b>21,135.76</b>	

The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, bank overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Borrowings are carried at amortised Cost.

The fair value and amortised value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

**39 Fair Value Hierarchy**

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

**i) Recognised and measure at fair value**

There is no outstanding financial instrument as on March 31, 2025 which are measured at fair value nor on March 31, 2024.

**ii) Measure at amortized cost for which fair value is disclosed.**

The Company has determined fair value of all its financial instruments measured at amortized cost by using Level 3 inputs.

**The following methods and assumptions were used to estimate the fair values:**

Long-term fixed-rate receivables/borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, and individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.

The fair value of loans from banks and other financial liabilities, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The valuation requires management to use unobservable inputs in the model, Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

**40 Financial Risk Management**

The Company is in the business of four laning of Ashoka Highways (Durg) Limited section of National Highway in the State of Chhatisgarh on design, build, finance, operate and transfer basis. The nature of the business is capital intensive and the Company is exposed to traffic volume risks. BOT projects which the Company undertakes are capital intensive and have gestation periods ranging between 3 to 5 years; coupled with longer ownership periods of 20 years. Given the nature of the segments in which the company operates, be it in the Road Sector, it is critical to have a robust, effective and agile Risk Management Framework to ensure that the Company's operational objectives are met and continues to deliver sustainable business performance. Over the years, several initiatives have been taken by the Company to strengthen its risk management process.

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk, and interest rate risk, regulatory risk and business risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the company is interest rate risk.

**The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:**

**i) Business / Market Risk**

Business/ Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. One of the first and foremost business risk is the achievement of the traffic projections made at the time of the bid. This will include the introduction of alternate roads by the state or central government which impacts the traffic projected to ply on the asset under the control of the Company. The concession agreement provides some safeguards in this regard but many of them are unforeseen and exposes the Company to risk.

**ii) Capital and Interest rate Risk:-**

Infrastructure projects are typically capital intensive and require high levels of long-term debt financing. These factors include: timing and internal accruals generation; timing and size of the projects awarded; credit availability from banks and financial institutions; the success of its current infrastructure development projects. Besides, there are also several other factors outside its control. The Company's average cost of debt remains at 10% p.a approximately. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term and short term borrowing with floating interest rates.

**NOTES FORMING PART OF THE FINANCIAL STATEMENTS**

**iii) Interest rate sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Companies profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	(` In Lakhs)	
	Increase/ Decrease in basis points	Effects on Profit before tax.
March 31, 2025	+100	-171.41
	-100	171.41
March 31, 2024	+100	-229.62
	-100	229.62

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

**iv) Credit risk:-**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and Investment Security.

Credit risk on trade receivables is limited as toll collection is primarily on cash basis and significant amount of receivables are from NHAI, which is Government promoted Entity having strong credit worthiness.

**The exposure to credit risk for trade and other receivables by type of counterparty was as follows :**

**v) Liquidity risk**

- (a) The company's principal sources of liquidity are cash and bank balances and the cash flow that is generated from operations.
- (b) The company has outstanding borrowings of ₹ 13796.45 Lakhs as at March 31, 2025 and ₹ 20485.78 Lakhs as at March 31, 2024
- (c) The achievement of the projections in the traffic and the toll rates is critical for the liquidity to pay the lenders and to complete Routine and major maintenance activity within the prescribed schedule of NHAI.
- (d) During the current year the companies' working capital is negative resulting in insufficiency of Current Assets to meet the Current Obligation. Accordingly, liquidity risk is perceived.

The Current Liabilities of the Company exceeds current Assets by ₹ -1888.75 Lakhs as at March 31, 2025.

These conditions indicate the existence of an uncertainty as to timing and realization of cash flow of the company. However, we expects that the Company's revenue for the subsequent financial years will be sufficient to meet the expenditure and recoup the losses incurred thereby strengthening the financial position of the Company. Further, there is a continuing support from the holding company and company will be able to discharge all its obligations in foreseeable future. Accordingly, the financial statements have been prepared on going concern basis.

**vi) Input cost risk**

Raw materials, such as bitumen, stone aggregates cement and steel, need to be supplied continuously for Schedule Maintenance activities. As mentioned in the earlier paragraph of the business risk and the competition risk the input cost is a major risk to attend to ensure that the Company is able to maintain the project cost within the estimate projected to the lenders and the regulators. To mitigate this the company has sub-contracted the maintenance activity at a fixed price contract to its Ultimate holding Company.

**vii) Exchange risk**

Since the operations of the company are within the country, the company is not exposed to any exchange risk directly. The company also does not take any foreign currency borrowings to fund its project and therefore the exposure directly to exchange rate changes is minimal.

However there are indirect effects on account of exchange risk changes, as the price of bitumen, which is a by-product of the crude, is dependent upon the landed price of crude in the country.

**41 Capital management**

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The gearing ratio in the infrastructure business is generally high. The net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents and Other Bank Balances.

In order to achieve this overall objective, the Company capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.
